## "I'm for Don Fraser because..."

"In the fifties, under the Republicans, we had three recessions and needlessly high unemployment rates. In the sixties, we've had 90 months of continuous economic growth. Just compare your own take home pay. That's why I'm for Fraser, Humphrey and the Democrats—they've been good for working men and women."

*Fay Frawley, 5547 14th Ave. S.  
Sec'y-Treas. Bartenders Union*

"If you've ever had your windows rattle because of jets, thank Don Fraser for helping to get the first bill passed that really does something about jet noise. This bill also provides money to study how to build quieter jet engines. Everybody living near an airport should appreciate that!"

*Mrs. Paul Kunian  
2723 Dean Boulevard  
Businesswoman*

"Don Fraser is a truthful and just man. He is also intelligent—he throws away old political cliches and learns from experience. He listens to people and actually hears what they say. He respects people and speaks directly to them."
